TOOLS RECOMMENDED

Modeler's knife

Fine clippers

Small file or emery board

Pin vise

Small drill set

Tweezers or needlenose pliers

Liquid plastic cement and/or ACC cement

WARNING

Use care when cutting with sharp blades, and drilling. Follow directions on the cement containers and work in a well-ventilated area.

ASSEMBLY INSTRUCTIONS

Please read the instructions, study the drawing and parts before assembling. Many of the detail parts are very fine and delicate. The best way to remove them from the sprues is with a pair of fine clippers or modeler's knife. **Do not attempt to bend, twist, or break the parts off!** TEST FIT ALL PARTS!!
